2013	3553	2976 83.8%	2701 76.0%	7 0.2%								
2014	3453	2927 84.8%										

A "cohort" represents first-time, full-time degree seeking undergraduates admitted for a given fall term. However, some fall admits may have taken some courses in the preceding summer quarter. "First-time" indicates students that have never matriculated as degree-seeking students at another college or university. "Full-time" is defined as enrolled in 12 or more credit hours. "Retained" students are cohort students that enrolled in a subsequent fall term. For example, the "1 year retention rate" is the percent of a cohort that enrolled the fall term that came one year after their initial fall term enrollment. The "Graduate Rate" is the percent of the cohort that graduated before a fall term anniversary. For example, the "4 year graduation rate" is based on students that received a bachelor's degree before the fourth fall term following their initial fall enrollment.
